

Modulightor, Inc.

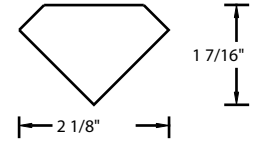

Extrusions EX

Most of Modulightor's products utilize our unique aluminum extrusion profiles which can house - internally or externally - a wide range of modular luminaires. Each extrusion profile can function as a wire way as well as a compartment or support for a specific luminaire. This modular component system offers a wide range of products which can now be fabricated to YOUR DESIGN AND SPECIFICATIONS. Our technical staff maintains the highest standard of safety and engineering in fabrication of your custom fixture as required of all Modulightor fixtures. You now have the freedom to DESIGN YOUR CUSTOM LIGHTING FIXTURE WITH MODULIGHTOR. Our Stock extrusions come in 12 foot lengths and are available in up to eight popular finishes.
